

Cantemus - JUST SING!

From the Conductor's Desk

This CD is representative of music from a wide variety of genres. As such it is a testament to the diverse capabilities of the Drakensberg Boys Choir. Most of these recordings are live, and although there may be inconsistencies in acoustic levels and even audience sounds audible on some of the tracks, they perfectly capture the energy behind our performances. We strive to use choral singing as an educational vehicle to empower the boys and enhance their experience of life. Time and time again, however, when working with them, one is struck by what they have to teach us. - *Johann van der Sandt*
